

# VERIFYNOW

www.verifynow.ca

## RISK ASSURANCE & COMPLIANCE

We provide independent security & privacy audits that build trust.

### GROW YOUR BUSINESS

Verify™ Security audits are designed to help you uncover unexpected vulnerabilities, pass regulatory compliance standards, and build a strong reputation of trust.

### BUILD TRUST

Your successful Verify™ audit comes with a trust seal that certifies that your company complies with requisite standards and is secure. You will also receive your auditor-signed Statement of Trust that proves that you can be trusted.

## Get Your Verify™ Seal

#### Verify Policy

Evaluate your administrative safeguards. Determine that policies are adequate for risk mitigation. Independently validate your documented procedures. Check compatibility with your trusted third parties' policies.

#### Verify Awareness

Test groups of employees to measure risk awareness. Determine your exposure to internal breaches. Gauge vigilance using social engineering. Encourage accountability & ongoing protection.

#### Verify Performance

Determine your system uptime, availability, and continuity risk. Can your sites and apps take the heat? Get a visual report of stress testing results. Use our cloud-based agents to simulate distributed attacks.
